Reproductive BioMedicine Online, Volume 47, Issue 4, 103384

Free your patients and yourself from day 2–3: start ovarian stimulation any time in freeze-all cycles. Ata, Baris et al.

The impact of war on reproductive medicine in Ukraine. Gryshchenko, Mykola et al.

Effects of erythropoietin on ischaemia-reperfusion when administered before and after ovarian tissue transplantation in mice. Rodrigues, Aline Q et al.

Maternal RNA binding protein with multiple splicing 2 (RBPM2) is involved in mouse blastocyst formation through the bone morphogenetic protein pathway. Zhou, Cheng et al.

Altered morphokinetics and differential reproductive outcomes associated with cell exclusion events in human embryos. Kakulavarapu, Radhika et al.

Storage time does not influence pregnancy and neonatal outcomes for first single vitrified high-quality blastocyst transfer cycle. Ma, Yuanlin et al.

A critical appraisal of studies on endometrial thickness and embryo transfer outcome. Mathyk, Begum et al.

Prevalence and clinical effect of caesarean scar defects in women undergoing IVF. Mensi, Laura et al.

Shared IVF among female couples: clinical outcomes of the Reception of Oocytes from the Partner (ROPA) method. Brandão, Pedro et al.

Exosomal microRNAs in tubal fluid may be involved in damage to tubal reproductive function associated with tubal endometriosis. Zhang, Yiqin et al.

Evaluation of TUBB8 gene alterations in infertile women with oocyte maturation and cleavage arrest referred to Royan Institute. Boroujeni, Parnaz Borjian et al.

DIRAS3 regulates autophagy in an endometriosis epithelial cell line. Yotova, Iveta et al.

Reference standards for follicular density in ovarian cortex from birth to sexual maturity. Hassan, Jasmin et al.

Impact of male age on paternal aneuploidy: single-nucleotide polymorphism microarray outcomes following blastocyst biopsy. Samarasekera, Tanya et al.

Impact of the war in Ukraine and the COVID-19 pandemic on transnational surrogacy – a qualitative study of Danish infertile couples' experiences of being in 'exile'. Tanderup, Malene et al.

Families created via identity-release egg donation: disclosure and an exploration of donor threat in early childhood. Lysons, Joanna et al.

Patient satisfaction with telemedicine and in-person visits in reproductive endocrinology and infertility clinics. Kim, Anne E. et al.

Fertility and Sterility, Volume 120, Issue 4

Can sperm quality affect reproductive outcomes? Schlegel, Peter N.

Can semen parameters predict pregnancy outcomes? Lamb, Dolores J. et al.

Sperm DNA fragmentation and its interaction with female factors. Marinaro, Jessica A.

Sperm centriolar factors and genetic defects that can predict pregnancy. Xie, Philip et al.

Improving outcomes of assisted reproductive technologies using artificial intelligence for sperm selection. Lustgarten Guahmich, Nicole et al.

The human edit. Cromack, Sarah C. et al.

Should we use CRISPR gene editing in human embryos?. Kubikova, Nada et al.

Reproductive endocrinology and infertility training: How long is long enough? Brolinson, Marja et al.

Testosterone and luteinizing hormone predict semen parameter improvement in infertile men treated with anastrozole. Naelitz, Bryan D. et al.

Meeting the demand for fertility services: the present and future of reproductive endocrinology and infertility in the United States. Hariton, Eduardo et al.

Recommendations from the 2023 International Evidence-based Guideline for the Assessment and Management of Polycystic Ovary Syndrome †. Teede, Helena J.Arlt, Wiebke et al.

Recommendations for reducing the risk of viral transmission during fertility treatment with the use of autologous gametes: a committee opinion

Misconduct in third-party assisted reproductive technology by participants and nonmedical professionals or entities: an Ethics Committee opinion

Utilization of anastrozole in male infertility: potential for expanded use? Deebel, Nicholas A. et al.

The patient or the blastocyst; which leads to the perfect outcome prediction? Giménez-Rodríguez, Carla et al.

Müllerian anomalies: Co-conspirators or independent adversaries? Yamasaki, Meghan et al.

Time for a paradigm shift. Carugno, Jose et al.

Telehealth: disparity and disappointment. Huang, Aaron et al.

An “iron-clad” link between obesity and accelerated depletion of the ovarian reserve. Johnson, Joshua et al.

Mandated fertility coverage: the resounding choice when morality, medicine, and money align. Klipstein, Sigal et al.

Timing of puberty in relation to semen characteristics, testicular volume, and reproductive hormones: a cohort study. Brix, Nis et al.

Association between a morphokinetic ploidy prediction model risk score and miscarriage and live birth: a multicentre cohort study. Bamford, Thomas et al.

Reproductive inequity and inferior intrauterine insemination outcomes in patients with limited English proficiency: a retrospective cohort study. Jain, Meaghan et al.

Reproductive outcomes of oocyte donation in patients with uterine Müllerian anomalies. Muñoz, Elkin et al.

The developmental potential of mature oocytes derived from rescue in vitro maturation. Shani, Adi Kuperman et al.

Long-term risk of repeated surgeries in women managed for endometriosis: a 1,092 patient-series. Roman, Horace et al.

Racial disparities in telehealth use during the coronavirus disease 2019 pandemic. Tewari, Surabhi et al.

Effects of pulsatile intravenous follicle-stimulating hormone treatment on ovarian function in women with obesity. Luu, Thanh Ha et al.

The transcriptome reveals the molecular regulatory network of primordial follicle depletion in obese mice. Zhou, Jiaqi et al.

Impact of in vitro fertilization insurance coverage in mandated vs. nonmandated states in the United States before 2017. Kappy, Michelle et al.

Trends in infertility prevalence and treatment seeking in the United States: Results from the National Survey of Family Growth 1995 through 2017–2019. Tierney, Katherine I. et al.

Optimization of peritoneal fluid and leukocyte collection in patients with endometriosis. Ramírez-Pavez, Tamara N. et al.

Diagnostic considerations and surgical techniques for a large prolapsing submucosal myoma. Carey-Love, Angelina et al.

Treatment of uterine scar cystoid diverticulum by hysteroscopy combined with laparoscopy. Wang, Yanan et al.

Letter to “A day in the life of a reproductive endocrinologist and infertility subspecialist—integration or dissolution?” Mouanness, Marco et al.

Reply of the author: “A day in the life of a reproductive endocrinologist and infertility subspecialist—integration or dissolution?” Santoro, Nanette

Local intraendometrial estrogen biosynthesis leading to progesterone resistance impacts implantation in adenomyosis and endometriosis. Humaidan, Peter et al.

Reply of the authors: Endometrial receptivity in adenomyosis and/or endometriosis. Pirtea, Paul et al.

Need to redefine letrozole resistance in polycystic ovary syndrome: understanding the concept of follicle-stimulating hormone threshold and window. SB, Bhanupriya et al.
